For: EFFICIENT LIPOSOMAL
ENCAPSULATION

DECISION ON PETITION

This decision is in response to applicants' "Response and Request to Decision on Petition" filed 26 January 2007. Applicants are notifying the Office that the name of the second inventor is Tong Shangguan as indicated on the declaration rather than Shangguan Tong as indicated on the published international application.

The Affidavit of Tong Shangguan states that "I am an inventor of some or all of the subject matter claimed in the above identified application and the error occurred without any deceptive intent on my part." As indicated in Section 201.03 of the Manual of Patent Examining Procedure, where a typographical or transliteration error in the spelling of an inventor's name is discovered, a petition under 37 CFR 1.48 is not required. Accordingly, applicants' explanation of the difference in the name of the second inventor is accepted and noted for the record. For the reasons above, the request is **GRANTED**.

This application is being forwarded to the United States Designated/Elected Office for further processing and for review of the national stage papers submitted 26 January 2007.
